

Anita's Story

Anita Washington, Retired, U.S. Department of Defense

My cause is children's hospitals. I will never stop praising one of the organizations that provided "a home away from home" for us when my five-year-old granddaughter was hospitalized for approximately three weeks. The hospital was about 50 miles from our home and it was a bad winter, which meant it was almost impossible to drive back and forth each night. My daughter and I wanted to spend every possible moment with my granddaughter who was petrified to be separated from us. At that time, we could not afford to pay for a hotel room. This CFC organization was a blessing to us.

"My cause is children's hospitals. When my five-year-old granddaughter was hospitalized, my daughter and I wanted to spend every possible moment with her. I will never stop praising one of the organizations that provided 'a home away from home' for us."
